in your brain.

He is **very sneaky** and has
defeated **Superflex** before!!

Do you recognize him?

HE MAY TRY TO:

- Get you stuck on doing only what you want to do.
- He will not let you compromise with others.
- **Rock Brain** will try to make sure that you make only bad choices so a problem only gets worse, or he will get you to try one solution that's not working over and over again.
- He will make you get stuck on rules and get stuck on ways that you want to do things without thinking about others.

If you recognize this character call on your **Superflex** for some **Superflexible strategies** to defeat **Rock Brain**... Here are a few strategies:

Notice that what you are doing is not working and **try another way** to solve the same problem.

Remember that being a part of a group means that you cannot always do it your way or have everything that you want. **Use self-talk:** "Not a problem. I will get to do this later or maybe another time."

Try to think about others' plans and **adjust your thinking** to match their plans.
